

## Child Protection Statement

Teachers Latin America is committed to placing qualified teachers in the classroom that will promote a safe educational environment. To that end, we support our client schools' efforts to find these teachers by asking for three administrative referees that can submit confidential reference checks regarding your work and your character.

We also wish to notify you that omitting criminal information on our application or giving false information can lead to dismissal by our client schools. Schools may also ask you for a criminal background check along with the submission of other documents that can affect the outcome of your hiring. Teachers Latin America supports our client schools in the gathering and use of this information so as to provide the safest learning atmosphere possible for all of our schools.
